Consolidated dossier of documents previously released, pertaining to the Republic of Finland and the United States of America

September 2025

Dossier of documents pertaining to Karl Wright aka DJ Phuzzy, the World's Greatest Hacker from the years 2020 to 2022

May 2025

In the year 2022, the United States Department of State covered up a series of events that happened in Finland, European Union. These events centered around Karl M Wright, date of birth July 15th 1973, successfully conspiring, planning and executing the largest computer hacking data breach in Finland history. This data breach shut down all the police stations in Finland for approximately one week, and severely compromised the Finland police data networks.

On March 10th 2022, Karl Wright was arrested by the Finland police in connection with this massive data breach. The charges were extremely serious, with a possible 20 year sentence. On March 15th 2022, all charges were dropped, and the Finland police released Karl Wright to the Finland Migration Service. The very serious charges were dropped at the request of the United States Department of State, even though this was the largest data breach in Finland history.

The planning and implementation of resources for this data breach was enabled by the use of monetary funds obtained by the US Internal Revenue Service from a tax return submitted in 2021 for the tax year 2020. The amount of the refund was for $6,900 US dollars, and an image of the check for these funds is included in this dossier. These US funds were spent by Karl Wright to buy many electronic devices, rent cars from car rental companies that were then infected with viruses, buy dozens of SIM cards for cell phones, and stay at hotels all around the country of Finland to generate legitimate real GPS data on the cell phones. The result of this was that in February of 2022, the Finland police data networks were hit from dozens of locations all around Finland with a massive cyber brute force attack, and the result was the near complete shutdown of their data networks.

Since this conspiracy was executed using funding obtained from the US Treasury, the United States Department of State had an apparent interest in making sure this situation was covered up. The exact reasons for the State Department covering up this event could probably only be answered by State Department employees, but one can guess that it was an attempt to gloss over the diplomatic work that was done by the first Trump administration. One can theorize that those in the Biden administration thought that Trump was a one-and-done president, and were attempting to turn the clock back to Obama era diplomatic policies.

Whatever the reason for the initial cover up, after Karl Wright was transferred to the authority of the Finland Immigration Service on March 15th 2022, he spent the next five and a half months continuing to do hacking work, from Finland Immigration facilities, and using the very same electronic devices that were used to breach the Finland police networks. Additionally, Karl Wright continued to purchase electronic devices online and had them delivered to him directly at the Finland Immigration facility, still using US Treasury funding. This resulted in further cover ups, and ultimately as a result of this, Karl Wright and his family were flown from Finland to the United States aboard the president of Finland's jet, with a full Finland diplomatic entourage on August 29th 2022. This was apparently necessitated because Karl Wright was banned entry into the United States by the United States Department of Homeland Security, and the only way to bring Karl Wright to US soil was by foreign diplomatic cover. Because of this diplomatic cover and escort, Karl Wright was able to bring all the electronics and other belongings that were obtained over the previous several years in Finland to US soil, where they continue to be used to this day. These last details are laid out final few pages of this dossier, under the "World's Greatest Hacker email thread" section.

Oregon DHS report

1 message

Karl Wright <karlmwright@gmail.com> Sun, Aug 23, 2020 at 12:29 PM

To: jenny.vayrynen@ristikangas.fi

Jenny,

I'm sending you a copy of a report I received from the Oregon DHS in 2018.

I'd like to direct your attention to the last page where it says "Concerns do not meet agency guidelines for CPS

assignment."

This is very specific American legal terminology. CPS is Child Protective Services. It is the American equivalent of social

workers.

This document states very clearly that CPS is banned from contact. Therefore, American "social workers" were banned

from being involved in our family. I'd like to talk more about this with you when we meet.

Court case

1 message

Karl M Wright <karlmwright1@gmail.com> Mon, Apr 24, 2023 at 2:36 PM

To: paul.neese@doj.state.or.us

Hi Paul Neese,

My name is Karl Wright. I believe you know who I am. What you may not know is some of the details surrounding

my time

in Finland, and my return to America. As a prosecuting attorney, you expect the truth, the whole truth and nothing but the

truth. I also expect the truth to be told in a court of law. And I respect and admire your dedication to justice.

The truth of the facts and events of my Finland experience seem to be at the very least diplomatically embarrassing for

the United States. There's growing reason for me to believe some of the details are considered classified information by

some people. I won't bore you with all the details just yet, but the last section of the story is that Rose and I were in an

immigration facility for the last 5 months. While we were in the immigration facility, we made a lot of pornography with the

assistance and supervision of the Finland police. Filming was technically not allowed, but the Finland police gave us a

free pass.

After a few months of my production releases to various porn sites, the FBI showed up in Finland and demand that the

Finnish police make it stop. The Finnish police kindly told the FBI to go pound sand. The FBI got belligerent, and some FBI

agents got kicked out of Finland, and banned from ever coming back. Even better, I recorded all these terse exchanges on

video.

When my family flew back from Finland to Portland, we were given diplomatic protection by the president of Finland, Sauli

Niinisto. As far as I know, that protection only lasted until we set foot on American soil. But I kept with me all my cameras

and memory cards that had all the footage from 5 years in Finland, including the last 5 months in immigration. I wasn't

sure if Customs and Border Patrol would confiscate all my stuff, but they didn't. And so I still have it all with me. I also

have with me several hundred pages of Finland documents from the Finnish courts and Finnish police. Considering the

great difficulty you've had with acquiring these same records on your own directly from Finland, I have to assume that

there's some reason why. I gave a copy of all these records to Stephanie Engelsman, so if you need to obtain a copy you

can ask her, or I can even give them to you. Again, they don't paint a pretty picture of the US diplomatically.

I pursued a political dialog in Finland which some people in America find objectionable. But it is a matter of free speech

and free expression. And I have every intention of using my opportunities in court, including ones where you are the

adversarial lawyer, to talk about my platform. And I will be presenting truthful and factual evidence to support my

position. However, as I have said, some of this factual material has very negative national security repercussions.

I would encourage you to consult with US DOJ attorney Natalie K. Wight about the situation with these matters. It seems

wise for everyone to be on the same page about these matters.

Sincerely yours,

Karl Wright

Hello Avery,

I have repeatedly mentioned my belief in the importance of the DHS-OHA work in protecting kids, and that continues to be

my position. I believe you have important work to do outside of whatever is going on in my family's case. As time goes on,

I become more concerned about the spillover from my case into everything else in your career. You have a necessary

partnership with the Oregon law enforcement community, and in spite of my belief in police abolition I understand the

importance of this relationship with them. However, you are being told some things about my case that are, to be honest,

wishful thinking. You're being told that there is an active criminal investigation, and I suppose in the strictest sense, it's

true that there's some kind of investigation going on. What your law enforcement liasons aren't telling you is that there's

zero chance of their investigations ever making it to court.

I would classify what is going on as gaslighting. In Finland I spectacularly embarrassed the American law enforcement

community and destroyed a lot of their credibility in the eyes of the European authorities. It's become readily apparent

that most of the details of what happened in Finland is categorized as classified information. And it seems that the only

recourse the US law enforcement community has is to use child welfare laws as a political weapon. If you can't

understand that to be true, and can't see how unusual this case is, then I guess there's no way to enlighten you. But you've

proven yourself over and over again to be operating on very incomplete information. If not, quite frankly, erroneous

information. It doesn't matter to me either way if you continue to believe what you're being told by the Oregon law

enforcement community. But you continue to open yourself up to being used as a pawn if you do. It is my veritable

treasure trove of classified information that prevents this case from ever seeing the light of day in a criminal prosecution.

This classified information can be ignored in a child dependency case in Juvenile Court, which to be honest is something

of a kangaroo court. But in big boy court, where sources of information matter, there is no way to mount a case and

simultaneously exclude the Finland happenings. And then the whole thing gets sunk as fruit of a poisonous tree. And

that's just the real deal situation.

I'm including a copy of the email I sent to Paul Neese on April 24th in PDF format. Just to refresh your memory on what it

said. It contains 100% factual information. But it's also classified information. Anyone that tells you it is in any way false

is engaging in a gaslighting campaign to cover up some epic and miserable failures on the part of the American law

enforcement community. Again, it doesn't matter to me what you believe, but I'd like to think some part of you is

questioning the whole narrative you're hearing. Do what you want, but choose wisely. This is two cents worth of advice

from the world's greatest hacker.

Hello Avery,

This email is designed to simplify the process of covering a wide range of topics at trial in the Multnomah County

Courthouse at the end of this month. I can simply read this email out loud, and you can confirm in court that it is verbatim

to the email you received. This email pertains to events that happened in February of 2022 in Finland. Since there is

considerable resistance to introducing the full portfolio of documents from Finland, and it seems in everyone's best

interest to avoid having to translate and authenticate the Finland documents, I will just describe events and we'll leave out

the bigger questions of how it all pertains to directly to my family members. At this point I'm trying to move away from

generating any new documentation that names anyone other than myself and Rose. I'm trying to preserve as much

privacy as possible for the others, under the circumstances.

Some background: Google LLC has a somewhat secretive law enforcement-only portal at lers.google.com which is

dedicated to providing law enforcement entities a system that facilitates transporting Google data to agencies in an

efficient fashion. It is part of a broader suite of network security infrastructure that is managed by the United States

national security community. Apple, Facebook/Meta, Amazon, Microsoft and others have a similar portal that is dedicated

to law enforcement requests. However, Google LLC is unique in its position as a provider of both hardware and software,

and its market position as probably the most powerful technology corporation on earth. In this respect, Google LLC is

almost a singular entity for law enforcement activity. Almost everything on the internet interacts with Google LLC in some

way, and so that makes their LERS system the most prominent law enforcement portal on the internet.

With that background setup out of the way, let's proceed to the details. On February 8th and 9th 2022 from an apartment

in Vaasa Finland, I sent a series of emails between two private
Gmail accounts that were all owned by me. There was

nobody except me involved in these messages. These emails contained keywords that trigger specific alerts in the

Google LERS system. Since the keyword triggering was restricted to only the Google infrastructure, only the LERS system

was affected. The result of this keyword triggering was that on February 10th 2022, every Finland police station across

the entire 1,000 mile expanse of the country was shut down. Every Finland police station remained shut down for about a

week, and the Finland news media documented the massive panic that affected the entire country.

I made no attempt whatsoever to conceal my identity - in fact I was counting on them knowing exactly who did it and

where to find me. And of course they did find me, with 50 police and 2 helicopters. I still find the interviews I had with the

Finland police amusing, as to why I shut down all their police stations. When they realized the details of how I did it, they

decided they couldn't risk revealing the national security infrastructure secrets in court, and dropped the whole case. My

hacking plan worked to perfection. And it had its desired effect: the whole family was put on an airplane and sent back to

the United States. This is but one example of why I'm the world's greatest hacker. It was certainly not the most technically

challenging feat I've ever done, but probably the most prominent. And I could be using these skills to earn a living for my

family. But instead I have to use these skills to fight DHS.

That concludes this email, to be read in court.

Oregon specific LERS alerts

Hello Avery,

As with my previous email, this email is intended to be read aloud in court, to simplify and expedite the introduction of

large amounts of information to the Multnomah County Court. Once again, I will read a print out of this email and you can

confirm that it is verbatim what you received.

In my previous email I described events in Finland that involved Google LLC's LERS system. Since it happened outside of

US jurisdiction and it is too complicated to verify for the court the accuracy and authenticity of those details, the subject

matter of that email was merely a background framework for this email, which contains Oregon specific utilization of the

Google LLC LERS system and it happened only in the State of Oregon. Therefore, it is easy enough to verify the

authenticity and accuracy of this information.

On three separate occasions in the last 29 days now, I have used keywords that trigger the Google LERS system to

document the response from the law enforcement community. Each time, it was the Gresham Police that responded to

the keyword trigger. This establishes a reasonable expectation that the Gresham Police are the lead agency utilizing the

Google LERS portal.

The first occasion, on May 11th 2023, was done from the Multnomah County Juvenile Courthouse in Portland. This is well

outside of the Gresham Police jurisdiction under normal circumstances, and is the strongest evidence that the Gresham

Police are the lead agency for LERS alerts. The second time, on May 31st 2023, was done using the Xfinity internet from

my apartment. Gresham Police patrol vehicles responded at about 6pm that day, and entered the Townfair apartment

private driveways where I live. The patrol vehicles left about 15 minutes later. The third triggering occasion, on June 6th

2023, was specifically designed to involve the Gresham Police drone program, also known as unmanned aerial

surveillance. I triggered the keywords from my apartment Xfinity connection at about 5:30pm on June 6th. At

approximately 6:40pm the Gresham Police drone operator, driving his patrol vehicle with the Oregon public license plate

E279228 and the Gresham Police fleet vehicle ID of P19 1534 entered the Townfair apartment private driveway where I

live, and was captured on my own security camera footage watching the drone video feed from inside his patrol car. At

approximately 6:50pm, this drone operator left the Townfair apartment complex.

This triplex of occasions that utilized the Google LERS alert system fundamentally establishes that the Gresham Police

are the lead agency in responding to Google LERS alerts, that there is 100% consistency in their response to the alerts,

and that they are dedicating considerably manpower plus tools and other resources to respond to these alerts. The

efforts and experience that went into documenting this is just another day in the life of the world's greatest hacker.

These are the raw facts in this situation. That concludes this email, to be read in court

Public debate on technology

Hello Avery,

As with my previous emails, this email is intended to be read aloud in court, to simplify and expedite the introduction of

large amounts of information to the Multnomah County Court. Once again, I will read a print out of this email and you can

confirm that it is verbatim to what you received.

The LERS system by Google LLC is an example of a technology product that has been given to the law enforcement

community, with no public debate as to whether the citizens want this level of technological surveillance in their lives. On

the flip side, as I have demonstrated, these tools can be reappropriated by a skilled hacker for use as a method against

the law enforcement community. Since there have been no legal cases surrounding these tools, there is really no court

case history to go on. We're living in the digital version of the wild, wild west.

One of the reasons for the lack of public debate on technology is that the corporations that provide our hardware and

software don't want new laws to be passed that limit their growth. This is a natural byproduct of the capitalistic mode of

economy, where the continued market accumulation is in favor of those who already have significant market share. And

to reverse this inertia, it is the job of governments to regulate corporations. There are monopoly laws for a reason. It is

incumbent on the citizens to be aware of what the providers of their societal infrastructure are doing. Unfortunately, too

many are painfully ignorant of their own society and its functions.

Another reason for the lack of public debate on technology is the opposition by the law enforcement community towards

anything that will hamper their ability to have free reign in the digital world. Unfortunately in the process of allowing

unfettered digital tool growth in the law enforcement community, we are allowing the foundation towards a police state,

right before our eyes. And this has dire consequences more pronounced for those US States that have more autocratic

tendencies such as Texas and Florida. If women's health care and minority rights are criminalized, it becomes very

easy

for the law enforcement members of these states to target these marginalized peoples with digital surveillance and

unleash upon them what has become known all over the world as one of the most unequal criminal justice systems.

The third, and possibly the most significant reason for a lack of public debate on technology, is the general math and

science ignorance of the average US citizen. It’s very difficult to have a public debate about the role of technology in

society when the average voter doesn’t even possess a basic understanding of math and science. The fact that the

science of the evolution of species is still controversial for some people is a damning indictment on the US education

system. The United States consistently ranks last in the industrialized first world on education.

The American public has kicked the can of technology debate down the road of progress for far too long. Other countries

are having this debate, and they are working on guidelines to preserve and protect the privacy of their citizens. The US, on

the other hand, is doing almost nothing. There is already developing a green technology arms race between the US and

the EU, and the EU is in a far better position due to its willingness to use the taxation purse strings as necessary to ensure

the public good. But more importantly, the EU is passing laws that safeguard the digital privacy of its citizens. And the US

is getting left far behind on that front.

But the fundamental question that must be asked today, right now, is why typing certain words in my own private Google

accounts can trigger law enforcement activity. If there were proper guardrails in place in our American society, this

wouldn't be happening. Most Americans are blissfully unaware that everything they type is under surveillance. The US

doesn't have the resources or capacity to prosecute everyone for every little infraction they've ever committed. It would

paralyze the court system. And so the US is moving towards a criminal justice system in which only the chosen members

of society get a free pass, and the law enforcement community can pick and choose who they "discover" keyword alerts

for. And that isn't a democracy. It's a police state.

The flip side, and honest truth
of the matter is that law enforcement tools such as Google LERS and similar products from

Apple, Microsoft, Facebook, Amazon and other tech companies are ripe for exploitation from a skilled hacker. The

computer networks of a police station are designed to prevent a brute force hacking attempt at the firewall. Because of

modern network router designs it is almost impossible to break in like that, and even denial of service attacks can be

easily mitigated. But police computer networks trust that emails and data coming from Google are safe and legitimate.

And so it's the perfect carrier for a large scale network attack. If a hacker knows the LERS system well, and can control

the flood of LERS alerts in a pinpoint fashion, almost anything can be accomplished. This is the digital wild west shanty

town that the US has allowed for itself. Those with the best technology tools can do almost anything they want, and those

who are less fortunate get run out of town on a rail.

Is this the future we want for ourselves and our children? Is it only now that this society discards the concept of life,

liberty, and the pursuit of happiness and tosses it into the gutter? Is it here in the 21st century where the idea of

inalienable rights dies? Do we want a society that is so fundamentally flawed that if you're born in the wrong economic

class you will never escape the chains of poverty? To that I say, proletarians of the United States, unite. You have nothing

to lose but your chains.

That concludes this email, to be read in court.

Hello Avery,

This email is NOT intended to be read in court, although I don't care either way. In the other emails I was sticking to just

the facts and leaving personal feelings out of it for the most part. But now I'd like to express my personal opinions on the

previous emails.

One of the reasons the Finland authorities gave for dropping the case against me for shutting down all their police

stations was that they didn't want my hacking techniques to become public knowledge, for fear that there would be

copycats, and all hell would break loose. That's still the same situation here in Oregon, with a Multnomah County Court.

I would encourage you to have a nice conversation with Paul Neese about these aspects of the court case, and fact check

the truth and accuracy of what I've been saying. Make absolutely sure this is the pandora's box you want to open. Because

once I read my emails, on the record, in a public trial, there's no going back. And it is my right, under the US Constitution,

to read these emails in court. That cannot be stopped. It opens the door to an avalanche of subpoenas against the

Gresham Police Department for inquiries into their use of the Google LLC LERS system, not to mention a flurry of lawsuits

against a long list of entities. And it also will bring to the general public an assessment of my hacking techniques that

could inspire copycats, and the next hacker to shut down police stations might not be as benevolent and careful as I am.

Also, there is a member of the law enforcement community named Nicholas Thompson, who will be questioned under

oath at trial about his Google LLC LERS system login credentials, and his utilization of the LERS system. Since it is the

right of all parties to cross examine witnesses, this is the direction this trial will be taking.

I feel like the public conversation about technology and law enforcement tools is long overdue, and I'm willing to force the

issue, here and now. DHS and the DOJ might have other ideas on whether this is the right time and place. Just be

god

damn sure you are fully aware of what you're getting yourself into. In a court of law, the truth always comes out, and you

better be absolutely sure you know what the actual truth is.

This is just the personal opinion of the world's greatest hacker.

Hello,

According to my rough estimates, upwards of 50 million dollars has been spent in the last 5 years by local, state and

federal US agencies in pursuit of me and my family. This seems like a colossal waste of taxpayer money. I was wondering

if this matter should be reported to the General Accounting Office (GAO) for investigation. I would do it myself, but most

of my time is being spent hacking and harassing the cops - also known as pig hunting. 😂

If someone else thinks this is a good idea, I would strongly encourage a GAO complaint to be submitted. Waste not, want

not, and all that.

You have received this letter because your children have applied for residence permits. To help us process the applications, read this letter carefully and do as instructed within the given time limit.

YOUR RESPONSES

Your children Broderick Karl Wright, Zoe Crysta Wright and Grace Mary Wright have applied for residence permits. If the decisions on the residence permit applications are negative, they might be deported. If they are deported, they may also be imposed with an entry ban. The entry ban may prohibit entry into the entire Schengen area.

You both can send us a written statement explaining, in your own words, your opinion on the possible deportation and entry ban. This written statement is called a response. You can either write your own responses or write one together. If you write your response together, you both must sign it.

This is what you need to do:

1) Answer the following questions in your own words in writing:

- What do you think about the possibility of Broderick Karl Wright, Zoe Crysta Wright and Grace Mary Wright getting deported?

- What do you think about the possibility of them getting deported and being imposed with an entry ban?

- If Broderick Karl Wright, Zoe Crysta Wright and Grace Mary Wright are deported, how would it affect their life?

Mention in your response everything you wish us to take into account when we decide the application. In addition, attach any documents or certificates that you wish to submit in support of your answer.

2) Sign your response. Write the date and the diary number 28766/120/2021 in your response. You have the right to use a counsel when giving your response. If you wish to use a counsel, you need to find one by yourself.

The Finnish Immigration Service has requested that we provide replies to questions under diary number 28766/120/2021 in our own words. The following is our answer to the questions put forth.

It is very unfortunate that the social workers from Malax have put our kids in the awful position that they are in. It is unfortunate that there is even this mentioned possibility of our kids having an entry ban on their record. However, we reiterate that it is the Malax social workers who put our kids in this position. We would have all left Finland two years ago if we had been allowed to just leave.

Especially in light of the growing menace and risk that Russia poses to the safety of both Finland and the entire European Union, we think it is both better and safer for the kids to be in America - even if they can never return to Europe - than risk the unknown future of being in Finland under the extreme Russian threat. Up until now, our motivation for leaving Finland was merely cultural. Now, it is the very concern for their future safety.

It has been noted by the United States Department of State that a record number of Finnish citizens have requested residency permits in America in the last month. The fact that even Finnish citizens want to leave Finland tells us that there is generally an ominous growing concern amongst the people here that there is a danger being this close to Russia.

Lastly, considering the upcoming litigation in United States courts regarding these very matters, we would very much not consider these proceedings to be the final word in whether or not our kids are able to enter Europe in the future.

As a postscript, we would kindly request that expedited negative decisions on our childrens' residency permits be considered. This current arrangement of waiting around to hear a decision is impacting the whole family.

Enligt 149 § 1 mom. 2 punkten i utlänningslagen får en utlänning som har haft uppehållstillstånd utvisas ur landet, om han eller hon konstaterats ha gjort sig skyldig till ett brott för vilket det föreskrivna maximistraffet är fängelse i minst ett år, eller om han eller hon konstaterats ha gjort sig skyldig till upprepade brott.

Enligt 149 § 1 mom. 3 punkten i utlänningslagen får en utlänning som har haft uppehållstillstånd utvisas ur landet om han eller hon genom sitt uppträdande har visat att han eller hon är farlig för andras säkerhet.

Enligt 147 a § 1 mom. i utlänningslagen ska det i ett utvisningsbeslut fastställas en tidsfrist på minst sju och högst trettio dagar inom vilken utlänningen frivilligt kan avlägsna sig ur landet.

Enligt 147 a § 2 mom. i utlänningslagen ska ingen tidsfrist för frivillig återresa fastställas om det finns risk för avvikande eller om personen anses äventyra allmän ordning eller säkerhet.

Inreseförbud meddelas i enlighet med 150 § i utlänningslagen, om inte något annat följer av 146 §, när det inte med stöd av 147 a § 2 mom. fastställts någon tidsfrist för frivillig återresa. Inreseförbud meddelas för högst fem år eller tills vidare.

När utvisning, meddelande av inreseförbud samt inreseförbudets längd prövas ska det enligt 146 § i utlänningslagen tas hänsyn till de omständigheter som beslutet grundar sig på samt sådana omständigheter och förhållanden i sin helhet som annars inverkar på saken. Vid bedömningen ska särskilt avseende fästas vid barnets bästa och skyddet för familjelivet. Sådana omständigheter som annars ska beaktas vid bedömningen är åtminstone hur länge och i vilket syfte utlänningen har vistats i landet samt karaktären hos det uppehållstillstånd som beviljats utlänningen, utlänningens band till Finland samt hans eller hennes familjemässiga, kulturella och sociala anknytning till hemlandet. Om beslutet om utvisning eller ett inreseförbud i anslutning till det baserar sig på utlänningens brottsliga verksamhet ska hänsyn tas till hur allvarlig gärningen är samt till den olägenhet, skada eller fara som orsakats allmän eller enskild säkerhet. När meddelande av inreseförbud och dess längd prövas ska det dessutom beaktas om utlänningen har band till Finland eller någon annan Schengenstat som avser familjen eller arbetet och vilkas skötsel oskäligt skulle försvåras av ett inreseförbud.

Enligt 147 § i utlänningslagen får ingen utvisas till ett område där han eller hon kan bli utsatt för dödsstraff, tortyr, förföljelse eller annan behandling som kränker människovärdet eller till ett område från vilket han eller hon kan bli sänd till ett sådant område.

Enligt artikel 3 i den europeiska människorättskonventionen får ingen utsättas för tortyr eller omänsklig eller förnedrande behandling eller bestraffning.

Enligt artikel 8 i den europeiska människorättskonventionen har var och en rätt till skydd för sitt familjeliv. Offentlig myndighet får ingripa i denna rättighet med stöd av lag och om det i ett demokratiskt samhälle är nödvändigt med hänsyn till t.ex. den allmänna säkerheten eller förebyggande av brott.

Enligt 6 § i utlänningslagen ska särskild uppmärksamhet fästas vid barnets bästa samt vid omständigheter som hänför sig till barnets utveckling och hälsa i beslutsfattande som sker med stöd av denna lag och som gäller ett barn som är yngre än 18 år. Innan beslut fattas i ett ärende som gäller ett barn som har fyllt 12 år ska barnet höras, om det inte är uppenbart onödigt. Barnets åsikter ska beaktas enligt barnets ålder och utvecklingsnivå. Även ett yngre barn kan höras, om barnet är så utvecklat att dess åsikter kan uppmärksammas.

Sakförhållanden

Migrationsverket har beviljat Wright ett tidsbegränsat uppehållstillstånd (A) på grund av finländsk härkomst för perioden 28.12.2017–28.12.2021.

Wrights uppehållstillstånd gick ut 28.12.2021. Han har inte ansökt om ett nytt uppehållstillstånd. Wright påträffades 10.3.2022 efter en polisoperation i en lägenhet som var reserverad för personer som vistas olagligt i landet.

Enligt uppgifterna i befolkningsdatasystemet är Wright gift och har fyra barn, varav tre är minderåriga och vars vårdnadshavare han är. Wrights familjemedlemmar är medborgare i Förenta staterna.

26.4.2022 dömde Österbottens tingsrätt Wright till ett villkorligt fängelsestraff på 5 månader för våldsamt motstånd mot tjänsteman som begåtts 16.9.2020. I samband med ett hembesök hade en polispatrull assisterat ambulansen vid familjen Wrights bostad. När polisen steg in i bostaden hade Wright närmat sig polisen och riktat en machete mot polisen. För att hindra Wright från att komma fram till dem med macheten har dörren stängts. Dörren har gått i lås och för att komma in i bostaden igen har poliserna tvingats öppna dörren genom att slå sönder ett av dörrens fönster. På uppmaning av polisen har Wright därefter kommit ut ur bostaden utan macheten. Eftersom Wright betedde sig aggressivt i samband med gripandet, var poliserna tvungna att använda maktmedel mot honom. Domen har vunnit laga kraft.

Wright misstänks för förberedelse till grovt brott mot liv eller hälsa den 8.3.2022. Ärendets förundersökning är på hälft.

Den 26.6.2018 gav polisen Wright 7 dagsböter för trafikförseelse.

Wright motsätter sig inte utvisningen. Wright har berättat att han vill lämna landet med sin familj så fort som möjligt.

Wrights maka motsätter sig inte utvisningen, om hennes familj kan vara tillsammans och om hela familjen kan resa till Förenta staterna.

Wrights minderåriga barn motsätter sig inte utvisningen av sin far.

Wrights minderåriga barn Zoe, Broderick och Grace Wright har placerats på Luna Familjecenter. Barnskyddsmyndigheterna har ansökt om uppehållstillstånd för dem 14.12.2021 på grund av familjeband. Migrationsverket har beslutat 1.7.2022 att inte bevilja Wrights barn uppehållstillstånd och att utvisa dem till sitt hemland Förenta staterna.

Polisinrättningen i Österbotten har 11.3.2022 gjort en framställning om utvisning av Wrights maka. Migrationsverket har beslutat 1.7.2022 att utvisa Wrights maka till sitt hemland Förenta staterna

Slutsatser

Wright utvisas till sitt hemland Förenta staterna, eftersom han på det sätt som avses i 149 § 1 mom. 2 punkten i utlänningslagen konstaterats ha gjort sig skyldig till ett brott för vilket det föreskrivna maximistraffet är fängelse i minst ett år. Dessutom har han också genom sitt uppträdande visat att han är farlig för andras säkerhet på det sätt som avses i 149 § 1 mom. 3 punkten i utlänningslagen.

Wright utvisas även därför att han vistas i landet utan uppehållstillstånd, när ett sådant krävs, på det sätt som avses i 149 § 1 mom. 1 punkten i utlänningslagen.

För Wright fastställs ingen tidsfrist för frivillig återresa enligt 147 a § 2 mom. i utlänningslagen, eftersom han äventyrar allmän ordning och säkerhet.

Eftersom det inte fastställs någon tidsfrist för frivillig återresa, meddelas Wright inreseförbud enligt 150 § i utlänningslagen för tre (3) år. När inreseförbudets längd har prövats har det tagits hänsyn till hur länge Wright har vistats i landet och vilka band Wright har knutit till Finland under sin vistelse samt å andra

sidan till den brottsliga verksamhetens art och hur allvarlig den är samt till den olägenhet, skada och fara som orsakats allmän eller enskild säkerhet.

Det har inte framkommit sådana omständigheter i ärendet som enligt 146 § i utlänningslagen ska tas till hänsyn vid helhetsbedömningen och som skulle väga tyngre än utvisningsgrunderna. Wrights maka och barn befinner sig i Finland, men de har inte beviljats uppehållstillstånd och det har fattats beslut om deras utvisning till familjens gemensamma hemland Förenta staterna. Wright har vistats i Finland med uppehållstillstånd i cirka fyra år, men han har inte ansökt om ett nytt uppehållstillstånd och han motsätter sig inte sin utvisning. Enligt utredningarna i ärendet har Wright inga arbetsmässiga band till Finland eller till Schengenområdet. Under sin relativt korta vistelse i Finland har Wright gjort sig skyldig till ett brott. Wright har dömts till ett villkorligt fängelsestraff på fem månader för våldsamt motstånd mot tjänsteman. Wright har bland annat hotat polisen med en machete och betett sig aggressivt i samband med gripandet. Genom sitt eget uppträdande har Wright visat att han utgör ett hot mot allmän ordning och säkerhet, och med anledning av sin egen verksamhet kan han inte anses ha anpassat sig till det finländska samhället. Dessutom saknar han en sådan ställning i det finländska samhället vars förlust till följd av utvisning skulle väga tyngre än utvisningsgrunderna. Wrights kulturella och sociala band kan anses koncentrera till Wrights hemland Förenta staterna.

Utvisningen bryter inte mot artikel 8 i den europeiska människorättskonventionen, och barnets bästa kräver inte att man avstår från utvisningen. Wrights familjemedlemmar har inte beviljats uppehållstillstånd i Finland och det har fattats beslut om deras utvisning till sitt hemland Förenta staterna. I den europeiska människorättskonventionen ingår inte heller någon allmän skyldighet för en stat att respektera en familjs val av bosättningsort.

Wright kan utvisas till sitt hemland Förenta staterna utan att bli sänd till ett område där han kan bli utsatt för sådan omänsklig behandling som avses i artikel 3 i den europeiska konventionen om skydd för de mänskliga rättigheterna och de grundläggande friheterna eller för sådan behandling som avses i 147 § i utlänningslagen eller till ett område från vilket han kan bli sänd till ett sådant område.

VERKSTÄLLIGHET

Beslutet verkställs av polisen på vistelseorten eller av passkontrollören på utreseorten. Enligt 200 § i utlänningslagen får ett utvisningsbeslut som har fattats med stöd av 149 § 1 mom. 2–4 punkten eller 149 § 4 mom. verkställas tidigast 30 dagar efter det att beslutet har delgivits, om inte förvaltningsdomstolen bestämmer något annat. Utvisningsbeslutet får dock inte verkställas förrän en ansökan om förbud mot eller avbrytande av verkställigheten har avgjorts. Ansökan ska göras inom 30 dagar från det att beslutet har delgivits sökanden.

Om det behövs besvärstillstånd av högsta förvaltningsdomstolen i ärendet hindrar besvären inte verkställigheten av beslutet, om inte högsta förvaltningsdomstolen bestämmer något annat.

CLASSIFIED INFORMATION

Summary:

On October 22nd 2018, Quentin Samuel Wright opened up a bank account with the SWIFT bank Aktia in Malax, Finland. The account number with Aktia is FI7840550016772390, and is still active as of July 2025. Over the course of three years, over 30 thousand Euros – equivalent to almost 40 thousand US Dollars – were deposited into this account. This is a matter of Finland police records. The full dossier of documents containing thousands of pages pertaining to this bank account is in the hands of the Finland police, and must be requested from them – if the proper security clearances are in order.

Avaintunnuskorttisi

Kertakäyttöinen avaintunnuskorttisi varmistaa yhdessä käyttäjätunnuksen ja salasanan kanssa turvallisen verkkoasioinnin. Näillä tunnusluvuilla asioit verkossa ja voit hoitaa pankkiasioitasi puhelimitse Aktia Asiakaspalvelussa. Verkkopankki pyytää turvaluvut satunnaisessa järjestyksessä eli turvalukuja ei tarvitse yliviivata. Kun kaikki turvaluvut on käytetty, sinun tulee ottaa käyttöön uusi, postitse saapunut avaintunnuskortti.

Näin otat ensimmäisen kertakäyttöisen avaintunnuskortin käyttöön

1. Kirjoita käyttäjätunnuskenttään 8-numeroinen käyttäjätunnuksesi.
2. Kirjoita salasanakenttään avaintunnuskortista avaintunnusta 01 vastaava 6-numeroinen turvaluku, klikkaa Kirjaudu.
3. Verkkopankkisi aukeaa ja järjestelmä pyytää sinua vaihtamaan salasanan.
   - Salasanan tulee olla 6-8 merkkiä pitkä. Älä käytä salasanassa $, #, @, &, %, < ja > -merkkejä.
   - Kirjoita salasanasi Anna uusi salasana -kenttään. Kirjoita salasana uudelleen. Vahvista salasanan muutos verkkopankin pyytämällä turvaluvulla.

Älä koskaan luovuta avaintunnuskorttia, käyttäjätunnusta ja salasanaa kenellekään muulle. Avaintunnuskortti ja tunnukset ovat aina henkilökohtaisia. Säilytä tunnuksia turvallisessa paikassa ja erillään toisistaan. **Pankki ei koskaan kysele sähköpostin tai tekstiviestin välityksellä henkilötunnusta, tili- tai korttinumeroita eikä pankkitunnuksia tai turvalukuja.**

Mikäli unohdat salasanasi, ota yhteyttä Aktia asiakaspalveluun puh. 010 247 010*, josta saat ohjeet uuden salasanan käyttöön ottamiseksi. Mikäli käyttäjätunnus, salasana tai avaintunnuskortti katoaa tai joutuu sivullisen käsiin, ota viipymättä yhteys tunnusten sulkupalveluun puh. 020 333 (ulkomailta +358 20 333) tai Aktia asiakaspalveluun.

Lisätietoja saat tarvittaessa Aktia asiakaspalvelusta arkisin klo 8-20 puh. 010 247 010 (ulkomailta +358 10 247 010), lähettämällä viestin verkkopankin viestitoiminnon kautta, omasta Aktian konttoristasi tai käymällä kotisivuillamme www.aktia.fi.

Report on the activities of American intelligence agencies in Finland and eastern Europe

September 2nd 2025

There are multiple American intelligence agencies that operate in Finland and all of eastern Europe. The CIA is the primary and most well known agency, but there are other, smaller agencies that are a part of the American National Security infrastructure that conduct infiltration and influence campaigns to the intended benefit of both American superiority on the world stage, and American corporate expansion and profit.

The American entity USAID has provided clandestine funding for CIA activities, largely on the African continent. But the funding has also allowed the recruitment and employment of citizens in various African countries, who are then placed in even European countries as immigrants. The Amoako family in Finland is one such example. Mr. Amoako was recruited by the CIA in Africa, then immigrated to Finland and married a Finnish woman, who was then responsible for conducting what looked on the outside like a religious charity. This allowed the funneling of financial funding from Africa to Finland without any way to truly account of the money that was being spent.

Clandestine money transfers in support of American National Security isn't limited to government agencies either. The American corporation KPMG has been recruited to provide clandestine money funneling and personnel to countries all over the world. From the surface, KPMG looks like an ordinary corporation, and that simplicity makes it effective in secret intelligence efforts. KPMG is heavily involved in Finland as far as American intelligence activities are concerned, because it allows the recruiting and paying off of Finland citizens, and the money trail leads one to believe that it was legitimate corporate activity. The perfect government money laundering operation.

Not to be outdone, British intelligence agencies have developed a very thorough presence in Finland. To be fair, most of this intelligence infrastructure was put in place before Brexit, when UK citizens were free to move in and out of Finland as they pleased. After Brexit, this UK spy network was forced to become more underground, since they were no longer a part of the European Union and their corporate structures were no longer automatically reciprocal.

The details of these American and British activities were exposed to the Finnish government in 2022 as a result of a massive investigation into a Finland country-wide data breach and computer hacking operation that created massive havoc on network connectivity throughout the Republic. These infiltration activities were previously unknown to both the Finland military and the Finnish parliament. A complete investigation was launched into these clandestine activities on Finland soil, and resulted in difficultly negotiated diplomatic agreements between Finland and the United States, the details of which remain highly classified.

The Republic of Finland has created a series of documents that detail the names and locations of foreign operations on Finland soil. Access to these documents are limited to a very select few people, for Finland sovereignty and security reasons.

The administration of Joseph Biden in the USA objected vehemently to the Finland investigation into American activities, and resulted in a very frosty relationship between Sauli Niinisto and Joe Biden. So much so that when Finland was lobbying to join NATO and Finland President Niinisto visited Washington DC in 2023, Joe Biden refused to see him in person. This cold personal relationship between Mr. Biden and Mr. Niinisto lasted for the rest of the Biden administration. Finland's application to the NATO alliance was approved in 2023 despite Joe Biden's personal feelings about Finland's Niinisto, to the credit of Congressional branch of government in America.

Hi,

We have successfully registered djphuzzy.com. We also created a hosted zone for your domain. This hosted zone is where you store information about how to route traffic for your domain, for example, to an Amazon EC2 instance or a CloudFront distribution. To learn how to add resource record sets to your hosted zone, see Working with Resource Record Sets.

If you did not request this change, please contact Amazon Web Services Customer Support immediately.
